INTERNET SAFETY The topic of children's online activity is an ever present issue of concern. There are obvious concerns that pose dangerous threats, such as online predators, as well as concerns regarding too much online video gaming. What parents may not be as much aware of are videos and content that seem to be made for a younger audience but are really geared toward a much older one. These videos and content material are very inappropriate for young viewers, yet students are coming to school and repeating and imitating the actions and words they see and hear from their online use. This type of behavior can significantly disrupt the learning environment and is not socially or emotionally healthy for children. For your child's safety and well-being, please closely monitor his or her online choices and habits!

Modeling Good Citizenship

- ▶ Be a good role model at all times. Children learn from what they witness.
- ▶ Model a clear sense of right and wrong by obeying laws and making thoughtful decisions.
- ▶ Show children you care about people by modeling friendship with others, lending a hand to neighbors, or working with charities.
- ▶ Practice recycling at home. It demonstrates wise use of Earth's resources.
