Fill It Up
 Pour water at different levels (1/3 cup, 1/2 cup, 3/4 cup, and 1 cup) into four different glasses. Ask your child: Which glass has more water? Which has less? How many glasses of water do you estimate it will take to fill a larger container? For older children, do activities using different-shaped containers that hold the same amount of water.

MISSION

Winside Public School provides all students high levels of learning to be college and career ready in the 21st Century.

For the third quarter, the students in grades K-6 have established a building-wide goal for both AM (Accelerated Math) and AR (Accelerated Reader). Students have some time built into their daily schedule at school to work on AM and AR and are encouraged to do the same at home. All students have access to their Renaissance Home Connect account to work on AM. In addition, all students should be taking a book home to read. Please contact your child's classroom teacher if you have any questions. We are keeping track of each week's progress ~~with our weekly~~ ^{with our weekly} goals and will be noting this in the
