“Two Pigs & T.H.E. Wolf” Students in grades K-3 will be entertained by the play “Two Pigs & T.H.E. Wolf”, which is put on by the Norfolk Arts Center. They will be attending the play on Monday, April 11th at 1:00 pm.

Countdown to School Success: April U.S. Department of Education

1. **Get schooled in math.** April is Math Awareness Month. Ask your children's teachers for suggestions on math games and online activities. Another resource: Check out the website of the National Council of Teachers of Mathematics: nctm.org/resources/families.aspx.
2. **Go a little greener.** Commemorate Earth Day on April 22 by planning an activity for your entire family, such as joining a local park's litter-cleanup team or planting a tree on your block. Check out your school-district website to see what they have on tap for students and their families.
3. **Thank your school staff.** These overlooked helpers are often the ones who keep things working smoothly for your children, so take time to recognize school office staff during the week of April 24-30, which is Administrative Professionals Week.
