Sleep Studies

Studies have shown those that do not get enough sleep each night are more prone to heart disease, type 2 diabetes, and obesity. Also 20-25% of children with ADHD have some sort of sleep disorder. Lack of sleep can also lead to temper tantrums, morning meltdowns, or irritable behaviors. Younger children may not be able to tell you that is wrong with them and may appear to be full of energy.

Mark Your Calendars ... Students will be dismissed from school at 1:30 pm this Friday, April 13th due to a teacher in-service. Please plan accordingly.

Guess If You Can
 Let your child think of a number between a stated range while you try to guess the number. Ask questions such as *Is it more than 50?*, *Is it an even number?*, *Is it more than 20 but less than 40?*, or *Can you reach it by counting by 3's?* After you guess the number, give the child a chance to ask questions for your secret number.
