Scheduled dates for testing are:

Wednesday, September 13th

Thursday, September 14th

Tuesday, September 19th

Wednesday, September 21st

MAP assessments are used to determine instructional levels and to measure academic growth throughout the school year and from year-to-year in the areas of reading, math, language usage, and science. These tests are taken on the computer. MAP tests are unique in that they adapt to be appropriate for each child's level of learning. As a result, each student has the same opportunity to succeed. With MAP tests, we can administer shorter tests and use less class time while still receiving detailed, accurate information about the students' growth. Reports will be shared with parents at conferences. Please make sure that your child gets a good night's rest and eats a healthy breakfast during MAP testing. Thank you!
